

# Lakshmi Kanumuri

203-916-3319 • lakskanumuri@gmail.com • [LinkedIn](#) • New York, NY

## SKILLS

- **Languages and Frameworks:** Python, SQL, Java, C++, R, JavaScript, TypeScript, React, FastAPI, HTML/CSS
- **AI & Machine Learning:** Agentic AI, LLMs, Generative AI, Retrieval Augmented Generation (RAG), LangChain, LangGraph, Model Context Protocol (MCP), Time Series Analysis
- **Data & Cloud:** Python, SQL, Data Warehousing, Database Management, ETL Process, API Integration
- **Infrastructure & Deployment:** AWS (EC2, RDS), Docker, Kubernetes, Expanding through AWS Solutions Architect Certification (IAM, S3, Lambda, CloudFront, DynamoDB, Neptune) expected completion June 2026
- **Visualization and Business Intelligence:** Tableau, PowerBI, Looker, Excel (Pivot Tables, Financial Modeling)
- **Workflow & Collaboration:** Git, DBeaver, Postman, Jira, Confluence, Agile Methodologies, Zapier, Code Documentation, Unit Tests

## EXPERIENCE

**Capgemini** **New York, New York**  
*Software Engineer- Financial Services (Insights and Data Team)* *Jan 2026-Present*

- Developing bespoke agentic AI solutions: end-to-end LLM pipelines, full-stack applications, and RAG systems to automate and accelerate internal financial services workflows
- Hands-on production experience with AWS (EC2, RDS), containerized infrastructure (Docker, Kubernetes); debugged live platform issues and built MCP integrations enabling complex multi-step reasoning in an internal agentic AI application

**ASML** **Wilton, Connecticut**  
*Data Science and Machine Learning Team- Software Engineer Intern* *May 2024-August 2024*

- Designed and implemented a Python-based computer vision pipeline to detect coordinates of fiducials, reference markers used for alignment in manufacturing environments, from interferometric scan data
- Wrote clean, testable code following engineering standards and conducted thorough testing to achieve 100% detection accuracy on test images, reducing detection time by over 50% and improving overall throughput and process consistency.
- Analyzed data, identified trends, and collaborated cross-functionally to improve quality assurance decision-making, reducing manual intervention and aligning with stakeholder-defined operational goals

**Dongmei Li Lab at the University of Rochester Medical Center** **Rochester, New York**  
*Clinical & Translational Science Institute Research Assistant* *May 2023-May 2024*

- Cleaned and structured large-scale Twitter datasets to analyze public sentiment surrounding nicotine products, enabling targeted insights for health policy research
- Applied NLP techniques (topic modeling, sentiment analysis), API integration, and fine-tuned a machine learning model to uncover key themes in public discourse around nicotine use and regulation
- Proactively identified and resolved technical issues in data processing pipelines to ensure data quality, integrity, and validation standards
- Created data visualizations and reports that distilled findings for use in academic publications

**Easy Event Planning LLC** **Remote**  
*Data Management/Analytics Intern, Data Management/Analytics Intern Team Lead* *June 2023-August 2023*

- Led a team of 10 interns to improve metadata relevance and search ranking for a set of 400K products through the generation of SEO product tags for marketplace listings and product articles using Google AdSense and Ahrefs, increasing website traffic; Implemented classification processes in Excel to improve user search functionality on the company's e-commerce website by identifying keywords from product descriptions

## PROJECTS

**Portfolio Performance Analyzer** | Python, [Streamlit](#), [Git](#) *October 2025*  
*Built an interactive investment analytics dashboard with real-time market data (Yahoo Finance API), risk metrics (Sharpe, Sortino, etc.), and valuation screening tools.*

- Enabled users to select and compare any combination of stocks, generating automated performance diagnostics, sector breakdowns, and optimization recommendations.

## EDUCATION

**University of Rochester** **Rochester, New York**  
*Bachelor of Science in Data Science, Bachelor of Arts in Business* *August 2021- May 2025*

**Trinity College Dublin** **Dublin, Ireland**  
*Computer Science and Business (Study Abroad Semester)* *August 2024- December 2025*
